ABDUL SAMI

Phone: +92-3228483029
E-mail: sb850839@gmail.com

SKILLS

Proficient - Python | NumPy | Scikit-Learn | Pandas | Matplotlib | React.js | Node.js | Core PHP | MySQL | MongoDB | HTML5 | CSS3 | Git | GitHub Copilot | Jupyter Notebook

Exposure - Microsoft Azure AI | Vector Embeddings | Deep Learning Neural Networks | Render | Vercel | Heroku

EXPERIENCE

Code3Byte / Independent Freelance

Web Developer | Jan 2026 – May 2026

- Designed and executed a web-based Gristmill Management System utilizing a decoupled React and Core PHP architecture.
- Developed Underpure an e-commerce web application for women's apparel, building a responsive frontend with React and engineering backend API integrations utilizing Core PHP and a MySQL database.
- Corrected a logical inversion in an order-processing model to accurately handle undefined weights during initial pickup requests and strictly track known weights for standard orders.
- Deployed and hosted full-stack web applications utilizing cloud platforms including Render, Vercel, and Heroku.

Academic & Independent Projects

Machine Learning & AI Practitioner | Dec 2025 – Present

- Wrote custom Python scripts utilizing NumPy and Scikit-Learn to process multi-feature regressions across 5+ datasets, perform 80/20 train-test splits, and build sequential deep learning models.
- Handled mathematical optimization algorithms, loss function derivations, and matrix dimensions for 10+ various data science modeling tasks.
- Participated in the Microsoft AI Skill 2026, specializing in aligning digital skills with Artificial Intelligence, Machine Learning, and Data Science workflows.
- Engineered predictive models including a Heart Attack Prediction system (Binary Classification achieving 92% accuracy) and a Height Prediction model (Linear Regression), successfully re-implementing both architectures utilizing Deep Learning Neural Networks to compare model accuracies.
- Applied Data Science workflows and machine learning techniques as part of hands-on coursework and specialized IT training initiatives.

EDUCATION

University of the Punjab

B.S. Information Technology
Dec 2022 - Nov 2026

Relevant Coursework & Certification
Tevta Microsoft Azure AI-900 Batch-2
Feb 2026 - May 2026

NAVTACC Full Stack Web Development in MERN Stack
March 2025 - June 2025
